### **Company Profile**

Established in 1870, the Syama Prasad Mookerjee Port (formerly Kolkata Port) stands as India's first major and sole riverine port, boasting two dock systems – Kolkata Dock and Haldia Dock Complex.

Despite facing a decline since 1966-67, the port's adaptability led to a resurgence in cargo and vessel handling, recording 50.951 million tonnes of traffic and handling 7,71,676 TEUs in 2016-17.

Notably, Kolkata Port ranks 3rd in India for container traffic and maintains its position as the major port circuit's busiest in terms of vessel handling. A well diversified investment program is already in place at SMPK, aimed at improvement of infrastructure/capacity augmentation/consolidation of existing facilities at the two dock systems while harnessing the deep-drafted facilities of the port to attract additional cargo/arrest flight of cargo.
